Mill Lane Primary School Behaviour Policy

Adopted :March 2019

Review Date : March 2022

At Mill Lane Primary School we believe children need to learn how to work and play together, resolve their differences in a calm and safe way and develop positive relationships with all members of the school community in a nurturing and supportive environment.

To enable us to do this we always try to use a restorative approach (Appendix 1) as we believe this helps children develop life-long social skills. We train some of our older children to act as peer mediators who then help to resolve low level disputes between pupils.

We are committed to the education of all our pupils and aim to instil a love of learning from the minute children walk through the door. In order to achieve this, it is vital that children behave in an appropriate way and approach their learning with a “can do” attitude.

All children will follow the school behaviour policy unless their individual needs require them to have a personalised behaviour plan. If a personalised behaviour plan is needed, the child will not participate in class and whole school systems.

Teachers have the power to discipline pupils for misbehaving outside of the school premises “to such an extent as is reasonable”. (Appendix 2 Department for Education Behaviour and Discipline in Schools January 2016)

Children at Mill Lane Primary School will:

- treat others with respect
- follow instructions (from ALL members of staff)
- act in a safe way (children will not be chased if they leave the premises – police and parents will be called)
- follow school rules and the class rules they help create
- accept the consequences of their actions
- complete their work in class to the best of their ability
- be polite and use kind words

Staff at Mill Lane Primary School will:

- treat others with respect and use a restorative approach
- be approachable to children, parents and carers
- be positive role models
- be fair
- reward good behaviour
- help children change unacceptable behaviour
- ensure the environment is safe
- listen

Parents and carers will:

- treat others with respect at all times
- keep school informed of issues which may affect their child
- work with school to support their child
- contact the class teacher with any concerns

We aim to create a harmonious and celebratory environment in school by noticing and rewarding positive behaviour. Some rewards systems will apply to the whole school, some will be specific to a key stage and some will be just for a class. In all instances, teachers will be regarded as skilled professionals trusted to use their judgement. Any concerns regarding behaviour should be directed, in the first instance, to the class teacher via appointment or at the end of the school day.

Appendix 1

Restorative Practices Philosophy Statement

Effective Restorative Practices foster awareness of how others have been affected by inappropriate behaviour. This is done by actively engaging participants in a process which separates the deed from the doer and rejects the act not the actor, allowing participants to make amends for the harm caused. Restorative Practices acknowledges the intrinsic worth of the person and their potential contribution to the school community.

Restorative Practices framework will:

- improve behaviour and attitudes;
- provide explicit tools within a defined framework to challenge unacceptable behaviour, resolve conflict and repair harm;
- improve relationships; establish rights, accountabilities and responsibilities to the community.
- provide a safe, philosophical basis for staff, pupils and parents to share ideas and discuss issues.

Externally facilitated restorative circles may be used and include parents, pupils and teachers to resolve ongoing conflict and move relationships on in a positive way.

Appendix 2
